GO GREEN
GET GREEN

DELAWARE DEPARTMENT OF TECHNOLOGY AND INFORMATION

The DTI Go Green-Get Green Initiative is an a awareness campaign being established to unite state employees in an effort to make meaningful and lasting changes in our use of information technology. We invite you to join our Green IT Army where you will be equipped with the information you need to help ensure the use of information technology at work and at home is done in in a more cost effective and environmentally responsible way for years to come.

♻ Recycle …recycling is the reprocessing of an item into a new raw material for use in a new product . This includes monitors, computers, keyboards, printers, copiers, scanners , fax machines, digital cameras, video games, calculators, cell phones, and ink cartridges can all be candidates. We can tell you how!

Reduce ….your carbon footprint (energy consumption of your electronic equipment for heat, light, power and refrigeration) as well as limiting the use of paper reports and printing on two sides of the paper. We can tell you how!

Reuse ….is often confused with recycling, but they are really quite different. Reuse in the broadest sense means any activity that lengthens the life of an item. We can tell you how!

Rethink ….by participating in our Go Green-Get Green initiative you will receive information to help you rethink your selection and use of information technology. We can tell you how!
